Additional Course Materials

Bring to class: One

16. **20" X 30" white Styrofoam board** for 17"x28" white stage. Instructions will assist you.
3/16" – 1/4" thick, to make "white stage" to highlight your live plant subject matter
17. **Simple Tropical Plant**
16" – 18" (bottom of pot to top of the plant) Multicolored bromeliads or crotons are excellent choices for color study. These plants are long lasting for the five week class if they have proper home care:
Tropicals need strong, bright, indirect light. Water once a week. Do not keep plants in a hot car all day long. Look for "color rich" tropical plants. The more colors, the more fun to draw.
18. **Drawing lamp provided**
